Labels : "CodeSoft"

CODESOFT 7 Enterprise RFID
Version 7.12.01

- CodeSoft: <http://www.teklynx.com>
- CodeSoft is Label Design Program. This Design can be linked via ODBC connection to a data set
- Via macros in MS-Access RETRIEVER we create these data sets, mostly based on a SetGen List, an open the specific label immediately
- We print all labels on ToshibaTec printers (models B482, BSX4 & BSX5)
- ToshibaTec: www.toshibatecusa.com
